The Dahill support team has coordinated and implemented several similar size and scope awards, independent School districts, government agencies and secure military bases across Texas. Some of these can be contacted in the Reference List. Details can also be provided through discussion. Upon award of bid and signed documents are received by Dahill, orders will be placed with vendor for any additional machines not available in our local warehouses. Dahill will receive systems from the manufacturer within approximately 14 days. Once Dahill receives the systems, they will be assembled, tested and prepared for delivery. Set up will also include any IP, security settings etc. as provided by DIR IT support to minimize installation time. Deliveries should occur within 3 days.

Installations can be performed in an orderly manner depending according to users preferences and installation conditions. The installation team would be comprised of up to 2-4 drivers/technicians and network support staff. Dahill trucks and Dahill employees only will be used for delivery and installation. On site coordination will be through Dahill Account Manager, Customer Service Manager and designated representative(s). Any planning tools co-authored with user prior to delivery would also help facilitate installation.

Training and orientation times will be scheduled on a per department basis according to each location's availability. Typically, the equipment trainers shadow the installation team to provide "in-service" training as soon as possible. Quick reference guides can be made available at all equipment locations upon request.

Follow-up training will be handled on a case by case basis. Once installation is complete the follow-up will be every week for the first month and then every month for the next three months. Training for advanced users, workflow applications, document management etc. is available upon request. Accommodations will be made for staff schedules and busy locations to facilitate training at their most convenient time. New employee or repeat training will also be accommodated.

Dahill utilizes its own trained technicians with full product support from the manufacturer. Our technicians use a "total call process" procedure to ensure that every aspect of the system is tested to ensure reliability and prevent call backs and down time. We will perform quarterly reviews of the account to re-evaluate each department and the performance of the systems.

Dahill does not anticipate entering into any new subcontracting agreements as a result of an award on this contract. Dahill is self-fulfilling. In areas not fulfilled by Dahill, they are contractually assigned and we can not subcontract out. If subcontracting is possible in the future, Dahill will amend the subcontracting plan.

SECTION 10 - AFFIRMATION

As evidenced by my signature below, I affirm that I am an authorized representative of the respondent listed in SECTION 1, and that the information and supporting documentation submitted with the HSP are true and correct. Respondent understands and agrees that, if awarded any portion of the solicitation:

- The respondent must submit monthly compliance reports (Prime Contractor Progress Assessment Report - PAR) to the contracting agency, verifying their compliance with the HSP, including the use/expenditures they have made to subcontractors. (The PAR is available at <http://www.window.state.tx.us/procurement/prog/hub/hub-forms/progressassessmentrpt.xls>).
- The respondent must seek approval from the contracting agency prior to making any modifications to their HSP. If the HSP is modified without the contracting agency's prior approval, respondent may be subject to debarment pursuant to Gov't Code §2161.253(d).
- The respondent must, upon request, allow the contracting agency to perform on-site reviews of the company's headquarters and/or work-site where services are to be performed and must provide documents regarding staff and other resources.
