

Appendix B- HUB Subcontracting Plan (HSP)

HUB SUBCONTRACTING PLAN (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.13 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders contracts,**
- **32.7 percent for all special trade construction contracts,**
- **23.6 percent for professional services contracts,**
- **24.6 percent for all other services contracts, and**
- **21 percent for commodities contracts.**

-- Agency Special Instructions/Additional Requirements --

In accordance with 34 TAC §20.14(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only contracts that have been in place for five years or less shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.

For assistance in completing the HSP, contact the HUB Coordinator, Bernadette Davis at bernadette.davis@dir.texas.gov.

At this time, GSS does not require a subcontractor for any portion of this contract The Alert Studio software application is web-based and the only labor required to set our system up is the installation at FM radio stations. We have a full time Chief Engineer who with his team set up, support, and maintain all of our equipment at the radio stations. We have a full time Customer Support staff that will train our customers on how to use the systems, our receivers, and our software. They will also troubleshoot any problems and questions that arise. ALERT FM and Alert Studio have been implemented in Mississippi, Alabama and Tennessee without the use of subcontractor. If a subcontracting opportunity becomes available, GSS will contact HUB companies first.
