** The hourly rates provided are a not to exceed (NTE) rate. Cisco will use the NTE rate to calculate a cost to deliver a statement of work (SOW). Cisco will use the NTE rates, required level of effort needed to produce the client approved deliverables, and skill set to determine the price of the SOW. For each customized SOW, Cisco will provide a fixed cost for the agreed upon deliverables. Any travel costs that are incurred for the specific SOW will be billed for separately. Individual hours, or blocks of hours may not be purchased separately. Because the SOW is offered at a fixed price, Cisco does not keep time cards.																																																											
<b>Partner Services</b>	Subject to Cisco's approval and the certifications held by its partners, partners can also offer services such as: Installation/de-installation; Asset Tagging; Staging/Deployment; Image loading; Image Consulting; System and Server Configuration; Rack and Stack Configuration; Maintenance; and Training.
