Aware, Inc. - Software Products	
Aware BioSP Core Server 4 Core - Description: Aware Biometric Services Platform is a modular, configurable, service-oriented platform used to integrate advanced biometric data processing and management functionality into an enterprise solution. BioSP is well suited for applications that require the collection of biometrics throughout a distributed network, and subsequent aggregation, analysis, processing, distribution, authentication, and sharing of this data with other system components. BioSP manages all aspects of transaction workflow, including messaging, submissions, responses, and logging.	16.25%
Aware BioSP Core Server 8 Core - Description: Aware Biometric Services Platform is a modular, configurable, service-oriented platform used to integrate advanced biometric data processing and management functionality into an enterprise solution. BioSP is well suited for applications that require the collection of biometrics throughout a distributed network, and subsequent aggregation, analysis, processing, distribution, authentication, and sharing of this data with other system components. BioSP manages all aspects of transaction workflow, including messaging, submissions, responses, and logging.	16.25%
Aware BioSP Biometric Identification Module 10K - Description: Addon to the BioSP Core Platform providing identification matching on biometric data within the system. Up to 10,000 Identities and 4 cores	16.25%
Aware BioSP Biometric Identification Module 100K - Description: Addon to the BioSP Core Platform providing identification matching on biometric data within the system. Up to 100,000 Identities and 8 cores	16.25%
Aware BioSP Biometric Subject Manager Module - Description: Addon to the BioSP Core Platform providing management of discrete subjects for submitted biometric transactions.	16.25%
Aware BioSP Biometric Transaction Manager Module - Description: Addon to the BioSP Core Platform providing history and analysis of biometric transactions received by the system.	16.25%
Aware BioSP Reporting Manager Module - Description: Addon to the BioSP Core Platform providing advanced reports and aggregate transaction evaluation.	16.25%
Aware BioSP Fingerprint Analysis Module - Description: Addon to the BioSP Core Platform providing fingerprint quality assessment, segmentation, and sequence checking.	16.25%
Aware BioSP Facial Image Analysis Module - Description: Addon to the BioSP Core Platform providing batch processing and analysis of facial images. Compliance profiles ANSI/INCITS 385 and ISO/IEC 19794.	16.25%
Aware BioSP Format Manager Module - Description: Addon to the BioSP Core Platform providing EFTS/EBTS data parsing, object creation, validation and data storage.	16.25%
Aware BioSP Application Integration Module - Description: Addon to the BioSP Core Platform providing interfaces between BioSP and COTS or custom interfaces including other external services and applications.	16.25%
Aware BioSP AccuPrint Print Server Module - Description: Addon to the BioSP Core Platform providing printing of EFTS/EBTS in accordance with FBI Appendix F certificaion.	16.25%
CBM Archives Co., LLC - Software Products	
CBM Batch Control Server - Description: CBM Batch Control is a service for Windows based servers that monitors definded directories for import into an external document management system. The program provides flexible user configuration for the directories to monitor and configurable log file processing. Platforms: Windows Server 2008/2012.	17.25%
CBM Card Print Server - Description: CBM CardPrint Server is a server based service that controls printing of biometric files based on the Electronic Fingerprint Transmission Specification. Traditionally used for the printing of fingerprint cards, the service can be configured to print finger, palm and/or mugshot data to multiple printers using configurable settings and user modifiable card layouts. Platforms: Windows Server 2008/2012.	17.25%

Important Note: Vendor's quote to DIR customers shall include the DIR Administrative Fee. The fee will be added after the discount is applied to the MSRP

CBM Archives, Co.

CBM Archives Co., LLC - Software Products (cont'd)	
CBM FES Capture Standard Edition - Description: This Front End Scanning station facilitates the processing of records electronically throughout the organization by allowing paper based documents to be converted to electronic documents as they arrive. The capture module controls document scanners in both simplex and duplex mode and is designed to streamline the capture and indexing of documents. The interface is customizable and supports rapid keying, database lookups and barcode recognition. Platforms: Windows 7/8/8.1/2008/2012	17.25%
CBM FES Capture Fingerprint Edition - Description: All the features of the "Standard Edition" with added support for the capture of FBI complaint fingerprint records and mugshot images. Platforms: Windows 7/8/8.1/2008/2012	17.25%
CBM FES WorkQueue - Description: This application works in conjunction with FES Capture to assist with the processing of electronic documents as they are routed through the organization. CBM FES WorkQueue allows users to display documents in a convenient manner as the user works with other line of business applications. Documents can then be annotated, printed or routed to the next user or group in the process. Dual monitor display is supported and recommended. Platforms: Windows 7/8/8.1/2008/2012	17.25%
CBM FES Workflow Server - Description: This server based service works in conjunction with other FES products to provide automated evaluation and routing of jobs as they are processed through the organization. Configurable rules and statuses can be changed together to create complex document processing scenarios. Platforms: Windows Server 2008/2012.	17.25%
CBM CJIS Web Viewer, Texas Edition - Description: This web browser plug-in allows for the searching and viewing of biometric files based on the Electronic Fingerprint Transmission Standard. The Texas edition is for use by authorized agencies for access to the archive hosted by the Texas Department of Public Safety. Platforms: Windows 7/8/8.1/2008/2012; IE => 8	17.25%
CBM CJIS Web Server, Texas Edition - Description: CBM CJIS Web Server provides web based access to data archives of biometric files based on the Electronic Fingerprint Transmission Specification. Once configured to interface with the users repository, CBM CJIS Web will manage the display and manipulation of biometric images to reduce server load and increase end user response time. The Texas edition is specifically designed for Texas agencies to meet the specifications put forth by the Texas Department of Public Safety. Platforms: Windows Server 2008/2013	17.25%
CBM Store and Forward - Description: CBM Store and Forward is a scalable, fault tolerant, state based workflow engine. A GUI interface provides for the design and modification of transactional workflows. Per server/machine license.	17.25%
CBM Sky Forms, Entry Level - Description: CBM Sky Forms is a form processing engine that allows custom forms to be designed, managed and routed based on business level rules and requirements. Completed, signed forms are then converted to PDF documents for archival purposes. Entry Level edition allows for the management of up to 10 form templates.	17.25%
CBM Sky Forms, Enterprise - Description: CBM Sky Forms is a form processing engine that allows custom forms to be designed, managed and routed based on business level rules and requirements. Completed, signed forms are then converted to PDF documents for archival purposes. Enterprise edition allows for the management of unlimited form templates.	17.25%
Document Logistix, Inc.	
Document Manager Enterprise Edition - Description: Document Manager is a full featured document management and/or content management system. Enterprise feature set includes Full Text Search, Encryption, Auditing, Screen/Web Scrape, Enhanced Administrator, Check-in/Check-out, Version Control, Desktop Scanning, Advanced Annotations, Filing Assistant, Microsoft Office Add-in, Import, Document Pre-viewer.
