Technician V (T5)

- Participate in strategic planning sessions with Technical Project Manager and customer staff
- Participate in delivering technical presentations to customer staff
- Serve as Technical Project Manager
- Analyze technical requirements and develop effective technical solutions
- Lead role in conceiving architectural designs
- Lead role in current environment assessment

General Experience: Eight or more years demonstrated performance in related technology. Experienced in topics such as complex networks, messaging, cross-platform integration and large-scale, complex systems design and implementation. This individual will have been trained in one or more of the following areas: Microsoft Solutions Framework, product futures, and relevant Certified Training associated with Microsoft's products.

Functional Responsibilities: Works closely with Project Manager as the Microsoft Advocate and sole or shared Technical lead to ensure development or analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products.

Education: Bachelor's degree or industry equivalent experience.

Technician IV (T4)

- Analyze technical requirements and develop effective technical solutions
- Assist in conceiving architectural designs
- Assist in delivering technical presentations to customer staff
- Assist in the implementation of large systems including methodology, design approaches, and architectural and engineering considerations.
- Design and write code as required for selected customer systems
- Directly involved in the hands-on implementation of customer systems
- Lead role in conceiving architectural designs
- Lead role in current environment assessment
- Meet/interview customer to capture specific requirements in concise format
- Participate in design of information systems
- Work with selected staff to support technical strategy and control objectives

General Experience: Five to eight years demonstrated performance in related technology. Experienced in topics such as complex networks, messaging, cross-platform integration and large-scale, complex systems design and implementation. This individual will have been trained in one or more of the following areas: Microsoft Solutions Framework, product futures, and relevant Certified Training associated with Microsoft's products.

Functional Responsibilities: Works closely with Project Manager as the Microsoft Advocate and sole or shared Technical lead to ensure development or analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products.

Education: Bachelor's degree or industry equivalent experience.

Technician III (T3)

- Assist in delivering technical presentations to customer staff
- Design and write code as required for selected customer systems
- Develop documentation on selected customer systems and objectives
- Directly involved in the hands-on implementation of customer systems
- Meet/interview customer to capture specific requirements in concise format
- Work with selected staff personnel to support technical strategy and control objectives

General Experience: Five plus years demonstrated performance in related technology. Experienced in topic such complex networks, cross-platform integration and large-scale, complex systems design and implementation. This individual will have been trained in product futures, and relevant Certified Training associated with Microsoft's products.

Functional Responsibilities: Works to support the Project Manager to ensure development, analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products.

Education: Bachelor's degree or industry equivalent experience.

Technician II (T2)

- Assist in delivering technical presentations to customer staff
- Design and write code as required for selected customer systems
- Develop documentation on selected customer systems and objectives
- Directly involved in the hands-on implementation of customer systems
- Work with selected staff personnel to support technical strategy and control objectives

General Experience: Three to five years demonstrated performance in related technology. Experienced in topic such complex networks, cross-platform integration and large-scale, complex systems design and implementation. This individual will have been trained in product futures, and relevant Certified Training associated with Microsoft's products.

Functional Responsibilities: Works to support the Project Manager to ensure development, analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products.

Education: Bachelor's degree or industry equivalent experience.

Technician I (T1)

- Design and write code as required for selected customer systems
- Directly involved in the hands-on implementation of customer systems
- Provide Technical Writing and Documentation support
- Work with selected staff to support technical strategy and control objectives

General Experience: One to five years demonstrated performance or internship in related technology. Experienced in topic such complex networks, cross-platform integration and large-scale, complex systems design and implementation.
