

## Information Security Forum for Texas Government

The Information Security Forum is an educational conference aimed at security and IT personnel throughout the public sector organizations across the state of Texas.

The 15<sup>th</sup> annual Information Security Forum will be bigger and better than ever before. **On May 20<sup>th</sup> through the 21<sup>st</sup>**, ISF expands to a two-day event and moves to the Palmer Event Center, which will allow for a higher attendance and more space for vendors and exhibits.

If you are interested in becoming an exhibitor, we have plenty of opportunities available at multiple sponsorship levels.

Over the years, this has become a premier event focusing on security trends and upcoming technologies. This is a great opportunity to network and promote your products and services to security leaders and personnel from across the state's public sector. In this expanded format the conference is expected to have up to 500 overall attendees, with up to 350 security and IT professionals.
